### **DETAILED ACTION**

Any rejections and/or objections, made in the previous Office Action, and not repeated below, are hereby withdrawn.

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

#### ***Claim Objections***

Claim 13 is objected to because of the following informalities: claim 13 depends from claim 4 which has been cancelled. Appropriate correction is required. It is assumed that claim 13 depends from claim 12.

#### ***Claim Rejections - 35 USC § 102***

Claims 9-13 rejected under 35 U.S.C. 102(b) as being anticipated by Morgan (US Patent No. 3,949,335).

Morgan et al. discloses a glass composition which anticipates the glass of instant claims 9, 10, 12 and 13. See, col. 5, Table 1, lines 1-20, Example A.

The reference fails to disclose the properties recited in claim 11. However, a glass's properties are determined by its composition, and the glass of the reference is identical to the glass of the recited claims. Accordingly, the glass of the reference is assumed to inherently possess the claimed change in refractive index with irradiation. See MPEP 2112.

Claims 9 and 11-13 are rejected under 35 U.S.C. 102(b) as being anticipated by Faulstich et al. (US Patent No. 3,723,143).

Faulstich et al. discloses a glass composition which anticipates the glass of instant claims 9, 12 and 13. See, col. 2, Table 1, lines 54-68, Example 4.

The reference fails to disclose the properties recited in claim 11. However, a glass's properties are determined by its composition, and the glass of the reference is identical to the glass of the recited claims. Accordingly, the glass of the reference is assumed to inherently possess the claimed change in refractive index with irradiation. See MPEP 2112.

### ***Response to Arguments***

Applicant's arguments with respect to claims 9-13 have been considered and are persuasive with respect to the rejections made in the previous Office Action. However, a new ground of rejection has been made.

### ***Conclusion***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period

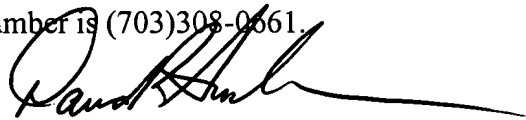

Art Unit: 1755

will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
